SAP MM Course in Pune
Google ★★★★★ UrbanPro ★★★★★
Sulekha ★★★★★ Just Dial ★★★★★
SAP Materials Management (MM) is a critical module in SAP that includes various components and sub-components, such as Master Data, Purchasing, and Inventory Management. At UV Technocrats, you will gain practical skills and insights into the SAP MM course in Pune. The SAP MM module is essential for organizations that require materials for production, ensuring there are no shortages at the workplace. This process of ensuring material availability is known as the Procurement Process. SAP MM supports all aspects of material management, including planning and control. It is a vital part of the supply chain, closely integrated with modules like Sales and Distribution (SD), Production Planning (PP), Plant Maintenance (PM), Project Systems (PS), and Warehouse Management (WM), all of which are highly reliant on the Materials Management module.

What is the SAP Materials Management (MM)

Materials Management is a module in SAP which consists of several components and sub-components including Master Data, Purchasing, and Inventory at UV Technocrats, you will learn practical skills and concepts of SAP MM course in pune.

SAP MM (Materials Management) is a module in SAP ERP that provides companies with materials, inventory and warehouse management capabilities. The primary goal of SAP MM is to make sure that materials are always kept in proper quantities and without shortages or
gaps in the organization's supply chain. This process of taking care of material availability is known as Procurement Process. It supports all aspects of material management such as planning, control, etc.

SAP Materials Management (MM) is a crucial component of the supply chain, encompassing key modules such as Sales and Distribution (SD), Production Planning (PP), Plant Maintenance (PM), Project Systems (PS), and Warehouse Management (WM). Each of these modules is closely interconnected with the Materials Management module, which plays a vital role in optimizing inventory, procurement, and overall material flow within an organization.
